Ministry of Health and Family Welfare

D.O NO. Z-28015/191/2024-TB

21st November 2024

Dear Sir,

As you are aware, the Ministry of Health and Family Welfare is committed to eliminating Tuberculosis (TB) from India through concerted and collaborative efforts. To fulfil the commitment of ensuring TB free India, a **100-Day Intensified Campaign** on TB Elimination will be launched on **7th December 2024**. This nationwide initiative is a crucial part of our commitment to improve public health across the nation by eliminating TB through significant reduction in the incidence and mortality rates.

2. This 100 days' intensified campaign will cover **347** selected **high priority districts** across **33 States/UTs (Annexure-I)** and will involve a comprehensive strategy to mobilize resources, raise awareness and intensify actions against TB across all prioritized States/Districts. The **campaign plan** along with **guidelines** are also enclosed (**Annexure II**).

3. Your active participation and timely support in the upcoming nationwide initiative is crucial to improve public health across the nation through significant reduction in the incidence and mortality rates of Tuberculosis. The partnership with your Ministry/Department would largely focus on collaborative actions for strengthening national response towards TB elimination. During the "100 Days Intensified campaign" the following specific actions are expected from your Ministry:

- Engagement of all institutions and organisations of AYUSH in the 100 days campaign.
- Display of IEC materials in all offices and institutions.

contd...2/-

-:2:-

- Awareness generation of all staff on TB.
- Organize Ni-kshay Shivar (screening camps) by AYUSH institutions to be organised in consultation with State nodal Health Department during the period from 3rd February to 15th February 2025.
- Dissemination of anti-TB messages on social media of the Ministry.
- Taking Ni-kshay Shapath (pledge) during the period from 27th January to 2nd February 2025.
- Communicate to all state functionaries on TB campaign seeking their support.
- Register new Ni-kshay Mitra in all institutions and organisations and Ministry of AYUSH.

4. Dr. Raghuram Rao, Asst. Director General (TB) of Central TB Division Mob: +91 9555113213, email: raor@rntcp.org is the nodal officer to be in touch with your office for needful action. Details of the launch event on 7th December 2024 will be communicated separately.

5. I would request you to instruct the officers concerned of your Ministry/Department to support this campaign so that the desired targets of the initiative are achieved in a time-bound manner. I look forward to your leadership and support to make this intensified TB elimination campaign a grand success.

With regards,

Yours sincerely,

Punya Salila
(Punya Salila Srivastava)

- b) Annexure II: Campaign Plan & Guidelines

Vaidya Rajesh Kotecha,
Secretary,
Ministry of AYUSH,
New Delhi 110023

Concept Note: 100 Days Campaign

1. Background

Tuberculosis (TB), caused by *Mycobacterium tuberculosis*, is a leading public health concern in India. The National TB Elimination Programme (NTEP) seeks to achieve a TB-free India by, targeting:

- 80% decline in annual TB incidence rate (from 2015 baseline)
- 90% decline in death due to TB (from 2015 baseline)
- Zero catastrophic expenditure due to TB

While TB incidence and mortality rates have decreased since 2015, challenges such as stigma, diagnostic gaps, and undernutrition remain. These require intensified efforts through innovative, community-centric approaches.

2. Goals and Importance

The campaign aims to:

1. **Increase Case Detection:** Raise community awareness and intensify screening/testing in high-risk populations.
2. **Reduce TB Deaths:** Provide early diagnosis, treatment, and nutritional support to reduce mortality.
3. **Prevent New Cases:** Strengthen preventive measures like contact tracing and treatment for latent TB infections.

This aligns with India's commitment to the Sustainable Development Goals (SDGs), addressing both social determinants and healthcare gaps.

3. Key Strategies

The campaign employs a comprehensive, data-driven approach to reduce TB incidence and deaths:

- **Early Detection:** Target vulnerable groups, including household contacts, individual with past TB, diabetics, PLHIV, undernourished individuals, smokers, alcoholics, and those over 60 years of age, people at congregate settings and workplace. Use of screening tools like X-rays with AI and confirmatory tools such as Nucleic Acid Amplification Tests (NAAT, molecular tests).
- **Treatment and Support:**

- Ensure prompt treatment initiation of appropriate treatment based on drug susceptibility testing
 - Differentiated TB Care
 - Provide nutritional support through Ni-kshay Poshan Yojana (₹1,000 per month per patient/ per month throughout treatment).
 - Mobilize community support through Ni-kshay Mitra for nutrition kits to TB patients and their families.
 - Nutrition support in form of Energy Dense Nutrition Support for patients with BMI<18.5.
- **Prevention:**
 - TB preventive treatment (TPT) for household contacts and vulnerable populations.
 - Promote cough hygiene, adequate ventilation, and regular screenings.
-

4. Campaign Execution

Geographical Focus: The campaign targets 347 districts across 33 states/UTs, including high-burden of TB disease and mortality due to TB, tribal, mining, and aspirational districts. Selection criteria include high death rates, testing gaps and high TB incidence.

Timeline:

- **Preparation** (Oct-Nov 2024): Training, resource mapping, and microplanning.
 - **Implementation** (Dec 2024-Mar 2025): Mass screenings, community mobilization, and treatment follow-ups.
 - **Evaluation** (Mar 2025): Analyze data, review outcomes, and recognize top-performing districts.
-

5. Expected Outputs

- **Detection:** Identify 2,00,000 additional TB cases.
 - **Coverage:** Achieve 90% screening of vulnerable populations using X-rays with AI and NAAT.
 - **Support:** Ensure 100% linkage of TB patients to nutritional support.
 - **Community Impact:** Prepare 50,000 panchayats for TB-free certification.
-

6. Janbhagidari for TB Mukh Bharat

The campaign emphasizes "Janbhagidari" (community participation) for TB elimination. A pledge will be undertaken by all identified community groups and members to contribute to reduce TB in the community.

- **Elected representatives**, political leaders, **PRIs** and ULBs will drive community mobilization and advocacy.
- **TB champions, Youths**, religious leaders and **community influencers** will be engaged to raise awareness and reduce stigma.
- **Corporate Sector** and industries will contribute as Ni-kshay Mitra to support patients and workplace interventions.
- **Private practitioners** and professional associations will be involved to ensure standardized care and notification of cases.
- **Community groups** and **NGOs** will create community awareness and support campaign activities.
- A whole-of-government approach will be supported by **different Ministries** and departments through awareness and supporting screening activities. (ToR attached as Annexure - 1)
- **Media** will be engaged throughout the campaign to disseminate the efforts and raise awareness.
- **New Ni-kshay Mitras** will be mobilized to expand network of support for TB patients.

Calendar of focused activities of Janbhagidari:

Janbhagidari activities would be implemented throughout 100 days of the campaign for certain stakeholders, like elected representatives, panchayati raj institutions, urban local bodies, community structures (VHSNC, SHGs, JAS, MAS), TB Vijeyeta (TB Champions) and local NGOs. However, focused activities of identified days/week as per the calendar below would be implemented by the stakeholders like community influencers, religious leaders, schools, colleges, government dept (other than health), workplaces, industries, media persons / journalists

Dates	Activities
7 th Dec	Launch of Campaign
8 th – 22 nd Dec	Mobilization of vulnerable population, sensitization of local stakeholders & Ni-kshay Shivirs in AAM & community
23 rd – 31 st Dec	Community Influencers & Religious Leaders during Christmas & New Year Festivities
1 st Jan -12 th Jan	Elected Representatives involvement, public gathering, Ni-kshay Shivirs in workplaces, congregate settings. National Youth Day Celebration

13 th Jan – 15 th Jan	Community Influencers & Religious Leaders during Lohri, Makar Sankranti & Pongal Festivities
16 th – 24 th Jan	Youth Involvement with events in schools, colleges 23 rd Jan – Neta Ji Subash Jayanti
25 th - 26 th Jan	TB messaging in Republic Day festivities at District level events
27 th – 2 nd Feb	Ni-kshay Saptah in Govt Depts
3 rd Feb – 15 th Feb	Ni-kshay Shivirs in workplaces, congregate settings
15 th Feb – 28 th Feb	Media Involvement – Media workshops, field visits by journalists
28 th Feb – 7 th Mar	Community Influencers & Religious Leaders during Ramadan Festival
8 th March – 23 rd Mar	Mop up for conclusion of campaign
24 th March	Culmination of Campaign with celebration of World TB Day

7. IEC

IEC activities are a critical component of the 100 Days Campaign, focusing on raising awareness, reducing stigma, and encouraging community participation in TB detection drives, prevention and treatment. These efforts leverage a mix of traditional and modern communication methods to ensure broad and impactful outreach.

Print and Outdoor Media:

- **Posters and Pamphlets:** Distributed in healthcare facilities, schools, and public spaces to communicate key messages like TB prevention, early detection, and nutrition.
- **Hoardings and Standees:** Large-scale outdoor branding to reach rural and urban audiences.
- **Wall Art and Paintings:** Engaging murals in high-footfall areas, reinforcing TB awareness.

On-Ground Engagement:

- **Nukkad Nataks (Street Plays):** Folk theater performances addressing TB myths and encouraging health-seeking behavior.
- **Loudspeaker Announcements:** In markets or other gathering places, mobile vans with loudspeakers can announce important messages on TB.

Broadcast Media:

- **Radio Jingles:** Short, impactful jingles promoting early testing and treatment adherence.

- **Short Films and TV Ads:** Visual stories highlighting TB survivors' journeys to destigmatize TB and promote hope.

Digital and Social Media:

- **Social Media Campaigns:** Posts promoting early testing, myths-busting content, and TB awareness drives.
- **Influencer Collaborations:** Engaging public figures to amplify messages about TB prevention and treatment.
- **WhatsApp Campaigns:** Disseminating TB-related success stories and informational content to normalize TB conversations.

Editorial Media Engagement:

- **Friends against TB:** Build a cadre of 10-12 journalists with State PIB & host regular meetings with this cadre during the campaign to increase coverage on best performers.
- **Media Workshops:** just after the launch of campaign & Regional Media Workshops during the campaign in Varanasi, Guwahati, Chennai / Bangalore
- **Weekly Features and Opinion Pieces:** Published across print, electronic, and digital platforms.
- **Sharing information** through factsheets and key achievements and **exposure visits** for media persons to district & community to showcase campaign activities.

Ni-kshay Vahan:

Ni-kshay Vahans (campaign specific branded Mobile Medical Units) would be used for the 100 Days TB campaign. About 1000 Mobile medical Units (available under NHM) would be utilized for IEC, organizing camps and mobility of health personnel in the peripheral areas. The MMUs would have trained medical staff including Medical Officer, Staff nurse, Lab technicians and support staff. These vans would have portable X-ray machines for on-spot chest X-ray, Truenat machines for sputum testing & any other tests as per local context, wherever required.

Through these MMUs following services would be provided

- Early identification and diagnosis of TB cases in vulnerable populations, remote areas, slums, prisons, orphanages etc. would be possible.
 - Provide education on TB symptoms and prevention.
 - On-site testing and diagnostic services (X-rays, sputum tests, etc.).
 - Refer or transport confirmed cases to healthcare facilities.
- Educational Sessions: Provide information on TB symptoms, transmission, prevention, and treatment

8. Field Activities

Screening:

- **Community-Level:** High-risk groups, including household contacts, individuals with history of TB, diabetics, PLHIV, smokers, alcoholics, elderly (>60 years), and undernourished individuals (BMI <18.5), will undergo screening by X-rays with AI, at door-to-door campaigns and camps.
- **Congregate Settings and Workplaces:** Populations in residential schools, mining areas, workplaces and slums will be screened by X-rays with AI, at respective settings.
- **Health Facilities:** At least 5% of OPD attendees at Ayushman Arogya Mandirs (AAMs) and 10% at community health centers and above will be screened for TB symptoms.

Testing:

- Deploy mobile testing units with X-ray with AI for screening and NAAT for confirmation to remote regions.
- Ensure seamless sample collection and transport for sputum and non-sputum specimens to diagnostic hubs.

Treatment and Support:

- Initiate treatment promptly for diagnosed patients.
- Provide differentiated care for high-risk individuals, including hospitalization if required.
- Deliver nutritional supplements to undernourished patients during the first two months of treatment.
- Ensure Ni-kshay Poshan Yojana benefits to all TB patients and nutrition kits for family members through Ni-kshay mitras.

Preventive Treatment (TPT):

- Screen household contacts of TB patients, using X-rays and TB infection tests, and initiate preventive treatment for eligible individuals.
- Monitor TPT adherence through counseling and regular follow-ups.

9. Operationalization of Activities

The campaign's success relies on meticulous operational planning and resource mobilization at every level:

Micro-Planning:

- Each district will prepare detailed micro plans down to the village level, specifying personnel, timelines, activities, and logistical requirements.

Human Resources:

- Healthcare workers, community volunteers, and NGO staff will be trained and deployed to manage increased workloads.
- Additional personnel may be outsourced through NGOs or agencies if the workload exceeds the current capacity.

Logistics and Infrastructure:

- Mobile/handheld X-rays and NAAT testing units will be deployed in remote and high-priority areas.
- Adequate supplies, including specimen collection containers, sputum transportation tools, and testing kits, will be ensured.

Supervision and Monitoring:

- Daily monitoring of campaign progress will be conducted through real-time data analysis and field supervision.
 - Supervisory teams will use standardized checklists to ensure quality and address any gaps in operations promptly.
-

Annexure - 1

Expectations from Ministry of AYUSH to Support 100 Day Intensified Campaign

Seeking support from Ministry of AYUSH in districts & sub-districts for 100 days Campaign on the following areas:

Sr.No	Departments	Key Expectation to support 100 days Intensified Campaign
1	Ministry of AYUSH	<ul style="list-style-type: none">• Engagement of all institutions and organisations of AYUSH in the 100 days campaign.• Display of IEC materials in all offices and institutions.• Awareness generation of all staff on TB.• Organize Ni-kshay Shivar (screening camps) by AYUSH institutions to be organised in consultation with State nodal Health Department during the period from 3rd February to 15th February 2025.• Dissemination of anti-TB messages on social media of the Ministry.• Taking Ni-kshay Shapath (pledge) during the period from 27th January to 2nd February 2025.• Communicate to all state functionaries on TB campaign seeking their support. <p>Register new Ni-kshay Mitra in all institutions and organisations and Ministry of AYUSH.</p>
